BLB Offers Unique Legal Product

In association with Tulloch & Co, solicitors, London Business Legal Bureau offers unique legal product that enables the clients to get high quality advice not only under Georgian law but under the laws of England and Wales as well.

Based on 20 year experience, it is obvious that choice of laws of England and Wales as a governing law of the cross-border transactions involving Georgia is the most preferred choice of laws. Even parties to the transaction involving only Georgian

jurisdiction often make laws of England and Wales as governing law of such Georgian business transaction.

We offer our clients the highest quality legal advice under the laws of England & Wales by Tulloch & Co that is led by founder Partner Mr. Alastair Tulloch, who has more than 30 year experience in business, corporate law and cross-border transactions with the focus of the Eastern Europe.

The uniqueness of this product offered by BLB is that clients will benefit by getting the highest quality advice under laws of England & Wales with much less/competitive cost (compared with international law firms). The clients also will benefit by unparalleled services in terms of speediness, availability, time and cost efficiency.

Business legal Bureau and Tulloch & Co have good track record successfully representing and advising clients in cross-border transactions and our philosophy is to provide added value to any transaction.
